# Responsible sourcing and production

All products are produced in a responsible way and comply with the requirements under EU laws and regulations. Choosing more sustainable materials has been an essential factor during the development of this End of Year collection. Would you like further insight or inspiration? Browse through our extensive more than gifts collection and we are sure you will find the perfect gift to convey your brand or marketing message.

# Social responsibility and Sustainable printing process

During production and printing we focus on creating a safe and positive working environment. All items are well-constructed, tested and produced with compliant and safe materials. Our printing process requires the safe use of all production inputs, such as chemicals and the control of all production outputs and emissions.

#### **Sustainable solutions**

A conscious and meaningful gift. By strongly reducing the use of virgin plastic and rethinking the most efficient way to pack the goods, both individually and for onward distribution shipment, we can reduce waste and influence our environmental footprint. In addition to the emphasis on the usage of recycled materials and materials that lend themselves to a recycling process, the distribution of the products is placed in the hands of logistic providers with a clear CO2 emissions offset program.

# Create a Personal Gift.

The importance of living a more sustainable life and to use more environmentally friendly products is clear. We highlight some of our latest products which not only have great green credentials, but will also create the stylish and personal touch to your gift.

## Close the loop by using recycled glass

Glass is one of the original and easiest materials to recycle without losing quality. There is no reason we should throw glass into our landfills as we can turn waste glass back into a new usable collection.

#### Collection

The glass is collected (recycle bin), sorted by colour and washed to remove impurities.

#### Processing

Glass is crushed and then mixed with the raw materials to colour and/or enhance properties as necessary.

#### **New products**

Glass mixture is melted in a heater and then molded or blown into new glass bottles or jars.

Piccadilly MO6656

Recycled glass carafe with cork lid. Capacity: 1L. **Size** Ø9x28 cm **Print technique** Pad printing,L,B
